Major Incident Support Bag

The Major Incident Support Bag is designed for use as a fast and early deployment of essential medical equipment in a major incident.

The bag has been designed by pre-hospital emergency care experts with considerable experience in major incident planning and provision. Key features include its ease of use with removable labelled and colour-coded individual pouches. A large insert pouch provides the skilled responder with comprehensive advanced airway and breathing equipment.

The bag can be supplied packed or unpacked and is configured to include a large quantity of useful high quality items such as triage cards, major haemorrhage dressings and airway adjuncts.

The bag is ideally suited for use by Paramedic Officers, Major Incident Officers, Medical Incident Commanders and Air Ambulance operations and will provide a rapidly deployable capability at the scene of any major incident.
