# Mass Casualty Treatment Pack

The Mass Casualty Treatment Pack is a comprehensive and easily deployable major incident pack containing essential medical equipment for use in a major incident.

The bag has been designed by pre-hospital emergency care experts with considerable experience in major incident planning and provision. Key features include its ease of use with removable labelled and colour-coded individual pouches. A large insert pouch provides the skilled responder with comprehensive advanced airway and breathing equipment.

The bag can be supplied packed or unpacked and is configured to include a large quantity of useful high quality items such as triage cards, major haemorrhage dressings and airway adjuncts.

The bag is designed for use as part the major incident plan by Major Incident Response Teams from both NHS Hospital and Ambulance Trusts and will provide a rapidly deployable capability at the scene of any major incident.
